Allen W. Bulles, Director of Central Intelligence, asked se to thank you for your letter of 2 December 1960 reference the teaching of the history and policies of Communism in our secondary schools.

Your suggestion that officers of the CIA personally contact school administrators to premote this plan is of interest and we appreciate your thoughts. We are limited to pointing out the need, in the opinion of Mr. Bulles, for such instruction but it is up to the American civilian economisty to take action in promoting such a project.

I am emplosing a copy of Mr. Dulles' address for your information. Thank you for writing to us.
